

THE BLAIRMORE ENTERPRISE

VOL. XXX, NO. 28.

THE BLAIRMORE ENTERPRISE, THURSDAY, JULY 12, 1928.

\$2.00 PER ANNUM

SUCCESS

By Edgar A. Guest

This is success: to live beyond deceit, too big to play the liar or the cheat, Too big to lean when burdens heavy grow.

Asking no favor from a friend or foe; Standing to life and all that it may mean.

With head erect and hands and com-

science clean.

This is success: to live from year to year,

Not asking always sunny skies and clear,

But wise enough to know and under-

stand Life as it runs exactly as we've planned;

Seeking the best, but when the worst is met,

Taking the blow without too much regret.

This is success: with all to play the friend,

Willing to give and glad at times to lend, Laughing and singing whenever you may be But passing bravely through the passing years. Neither deceived by flattery nor by sneers.

This is success: the love of friends to win, To taste no pleasure that may lead to sin, To taste no profit from the hand of shame, But by a fair fight win or lose the game; To gain from life such triumphs as you can, But still through good or ill to play the man.

Old Lady: "What are we stopping for?"

Taxi Driver: "Glass on the road, ma'am."

AT THE ORPHEUM THEATRE

A number of high-class film attractions are booked to appear at the Orpheum theatre within the next ten days, including Carl Laemmle's biggest, "The Heart of a Nation," sequel to the great picture, "The Birth of a Nation," of a few years ago. It is taken from the successful Broadway play by Milton Herbert Gregor and Max Siegel. This picture appears on Friday and Saturday.

On Monday next, Lon Chaney will appear in "Laugh, Clown, Laugh," an unusual love story against a circus background; directed by the man who made "Beau Geste" and "Sorrell and Son." This one can be matched against them all for drama.

On Tuesday, Warner Brothers will present "White Flannels," another big attraction; and on Wednesday "Desired Woman."

Friday and Saturday, July 20th and 21st, Dolores Del Rio in "Ramona," Helen Hunt Jackson's American love classic.

A BIG FISH

The biggest fish we have ever seen hooked in inland waters fell victim at the Gap on Wednesday to a spinner purchased at the Blairmore Pharmacy. The fish weighed 158 pounds and was not a Dolly Varden. Ask Alex Morency.

MCDONALD KIDDIES COMING

A big attraction has been booked to appear at the opera house here on the night of Monday next, July 16th, in the "McDonald Kiddies," the winsome children who have taken such a prominent part in the big western picture, "Destry." The McDonald Kiddies have travelled extensively with Chautauqua and are classed among the world's greatest entertainers.

CARD OF THANKS

The Blairmore Miners' Union wishes to thank the following donors to the children's picnic and sports on June 27th:

Mr. Vissac, \$25.00; Mr. J. F. Smith, Cosmopolitan hotel, \$20.00; Mr. W. Bell, Coleman, \$10.00; Mr. F. Revinsky, Frank, \$5.00; Mr. Murray, Frank, \$2.00.

They also wish to thank the school staff and all those who assisted in making the day an enjoyable one for the children.

CARD OF THANKS

The Sisters of Providence of the Lacombe Home Midnapore, desire to express their sincere thanks to the people of the Pass for the courtesy and kindness shown to them in their recent visit to the district, as well as for the generous manner in which the citizens responded to their appeal in behalf of the Home.

CHINESE CONVICTED OF HAVING OPIUM IN POSSESSION

Leam Lee and Lee Lee, of Crown Nest, were fined \$100 and costs each for an infraction of the Opium and Narcotic Drug Act, or in default of payment of the fine to twelve months imprisonment, or until fine and costs are paid in full.

Lim Fong Kee was fined \$50 and costs on the same charge, or imprisonment for a period not to exceed twelve months.

The cases were tried before Stipendiary Magistrate Cope at Fernie on Monday, and were the result of a search by Corp. Weaver, R.C.M.P., of Blairmore, on June the 20th.

An exchange remarks: Women's clothes may go to extremes, but seldom to extremities.

Tomorrow is Friday the 13th.

REBEKAH OFFICERS INSTALLED

At the regular meeting of Crownview Rebekah Lodge, held on Thursday night last, the officers for the ensuing term were duly installed as follows:

Noble Grand—Sister M. Patterson. Vice-Grand—Sister E. Howe. Warden—Sister Baratelli. Conductor—Sister Smith. Chaplain—Sister E. Kidd. R.S.N.G.—Sister Hamilton. L.S.N.G.—Sister Feron. Inside Guardian—Sister Erikson. Outside Guardian—Sister H. Patterson.

R.S.V.P.—Sister McKay. L.S.V.G.—Sister Kemp. Recording Secretary—Sister K. Turner. Financial Secretary—Sister C. Walker.

Treasurer—Sister Morency.

Following the meeting, refreshments were served.

R.F.O.E. PICNIC

Members of lodges in District No. 1, of the B.P.O.E., namely Colemen, Blairmore, Pincher Creek, Macleod, Graman and Lethbridge, will gather in annual picnic at Pincher Creek on Wednesday of next week.

The Macleod Elks' band will be in attendance.

The wives, lady friends and kiddies are invited, and it is expected, with good weather, a very large crowd will attend.

The programme for the day may be seen on bills posted.

WHAT'S THE USE?

Uncle Tom Cobbley says: Every time I seem to have come up against a stone wall; every time I get into a "what's the use" frame of mind, I like to recall Burton Briley's brief verses that came in a what's the use book.

If you ever want to clip 'em and refer to 'em some time, too: "The best verse hasn't been rhymed yet" (apologies Smith).

The highest peak hasn't been climbed (apologies Pozzi).

The mightiest river hasn't been spanned (apologies Little).

The mightiest rivers have been spanned (apologies C.P.R.).

Don't worry and fret, faint-hearted.

The chances have just begun:

For the best job haven't been started.

The best work hasn't been done.

(Just for fun)

Try this out and see if you get the same total:

In what year were you born
What is your age
In what year did you take
Your present position
How many years have you
Worked at this job

TOTAL 3 8 5 6

Our entire staff have decided not to get married until our laws are amended so that divorces cannot be granted.

COWLEY HAPPENINGS

Divine service will be conducted in the United church here on Sunday evening, with Rev. H. J. Bevan, of Coleman, officiating.

Miss Nora Thibert, second daughter of Mr. and Mrs. Mose Thibert, was united in marriage to Mr. William Hill on Saturday, July 8th, at Macleod.

Mrs. Lionel V. M. Peel and little son Robert, of Blairmore, have returned after spending a week visiting with Mr. and Mrs. Lawrence Peel at their ranch north of Lundbreck.

Several music pupils of both piano and violin, will take examinations from the Conservatory of Music, Toronto, at the home of Mrs. Dr. Donald today, July 12th. The bigger part of the day will be taken up in this work.

Mrs. Joseph Morgan and her niece, Miss Mary Bush, left for Creston by motor the early part of the week, accompanied by Mrs. Doyle and Mr. James Gerry. We understand that Mrs. Morgan will stop at Creston for some time, while the rest of the party will return shortly.

PLAYING CRICKET

It's doing your job the best you can, And being fast to your fellowmen; It's making money, but holding friends, And staying true to your aims and ideals;

It's figuring how, and learning why, And looking forward, and thinking high,

And dreaming little, and doing much;

It's being always in closest touch With what is needful, word and deed;

It's being thorough, yet making speed;

It's daring blithely the field of chance,

While you're brave and romancing;

It's going forward steadily,

And standing firmly with steady feet;

It's being honest, and playing fair;

It's laughing lightly at Grim Despair;

It's looking up at the stars above

And drinking deeply of life and love;

It's struggling on with the will to win;

But taking loss with a cheerful grin;

It's learning to golf and keep your reason

When your partner shoots "birdsies" out of season; It's curling the rock when the ice is rough; And the skip keeps shouting "not fast enough"; It's sharing sorrow, and work, and mirth, And making better this good old earth; It's applying the Britisher's code of sport

Where the loser wins by a kind report;

It's driving onward through plains and thickets;

It's doing your noblest—that's playing Cricket.

ICE CREAM SOCIAL

Treat your palate to a cooling draught on Saturday, July 21st, at an Ice Cream Social under the auspices of the Junior Catholic Women's League on Mr. R. Green's lawn, front 3 to 7:30 p.m. Ice cream, cake, sandwiches, sale of home cooking, etc.

WORLD HAPPENINGS
BRIEFLY TOLD

Royal Canadian Mounted Police in all parts of Saskatchewan are carrying on a vigorous campaign to remove dreams from the possession of aliens.

The international peace congress at Warsaw ended its session by strongly emphasizing the conference's appreciation of the Kellogg proposal to outlaw war.

Mining staking in Manitoba for the first six months of this year reached a record-breaking figure, according to the monthly statement of the Federal Recording Department.

His Majesty King George, is giving up Abergeldie Castle, which he and his two predecessors, King Edward and Queen Victoria, have had on lease for about eighty years.

A. H. Gee, Ph.D., prominent young Canadian scientist of Toronto and Yale universities, has been appointed assistant professor in the University of California. Dr. Gee is only in his middle twenties.

Negotiations for amalgamation of the Marconi and Eastern Telegraph Companies are reported to be near a head and an announcement is expected shortly it is understood. The negotiations include the government owned Imperial Radio.

Dr. Duncan Campbell Scott, deputy superintendent general of Indian affairs, has been appointed to order-council to one of the six commissioners of the Northwest Territories, in place of John W. Greenway, commissioner of Dominion lands, who died some time ago.

A bylaw passed by the Montreal City Council, in 1870, prohibiting unnecessary noises has been invoked in court. A firm of local music dealers was fined \$10 and costs for creating unnecessary noises by means of an outside gramophone apparatus.

Market For Alberta Wool

Samples Sent To Japan Were Found Safe

Japan may become one of Alberta's important wool markets. The agricultural Department at Edmonton has been advised by K. Miyashita, of Kobe, Japan, that samples of Alberta wool sent to Japan on request some time ago had been inspected and tested and that the results are highly satisfactory.

Mr. Miyashita says that the Japanese Government intend to import wool of the same quality from this province and that it is likely a number of orders will also be given this year by private firms. Further information is asked for as to how many hundred tons can be supplied.

The possible establishment of trade connections with the Japanese market in wool follows a series of inquiries covering the past year or more.

K. Kanda, director of experimental farms for the Manchurian railways, looked somewhat carefully, on his recent visit here, into the possibility of doing some business in this line, and Capt. T. Kawakami, who spent a month in Alberta last year, was also greatly interested in the question of wool, among other western products for trans-Pacific import.

Hungarians Organize

The Hungarian Farmers' Association of Saskatchewan was organized with a view to assisting the 40,000 Hungarians now living in this province. Tritz Leibsteker, of Horizonton, was elected president. Headquarters of the organization will be in Regina.

Courtship—"Oh, if he'd only go home!"

Marriage—"Oh, if he'd only come home!"

A red sunrise, with clouds lowering later in the morning indicates rain.

"Have you a book called 'How to Fight the Increasing Cost of Living?'"
"Yes, but it has gone up in price."
—Pete Mele, Paris.

Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1938

(Continued.)

Before leaving for Denmark, it was arranged to pay a visit upon the site of the Coronation in Windsor, a wreath of poppies in tribute to the Empire's Glorious Dead. We marched from Horseguards Avenue to the Cenotaph, escorted by mounted and foot police. The wreath bore the arms of every Province, and was carried by Mr. William Guild, of Kenmoy, Manitoba, and Mrs. Augustine of Ontario, both of whom had lost sons in the war. Reverently they laid it at the foot of the stone while we stood bare-headed and in silence. This was a momentous duty, our squad task, the memory of which, whatever else in this tour may be forgotten, can never fade.

We had time before entraining for Britain to visit the Houses of Parliament and Westminster Abbey. One of the most striking features of the beautiful Parliament Buildings is the tower. The Victoria Tower, above the royal entrance, is the tallest square tower in existence. The site of the Houses of Parliament was occupied by an ancient palace built by King Edward the Confessor. Henry VIII was the only London residence of the reigning sovereigns. The present buildings date from between 1834 and 1850 and cost \$15,000,000 to cover eight acres and contain 1,100 rooms and two miles of passages.

We passed through both Houses, the House of Commons is much smaller than the House of Lords. Commence At one end are the thrones of the King and Queen, and at the other end the state chair of the Commonwealth of Wales. In the Commons we were shown the brass plates occupied by Mr. Baldwin, Mr. Churchill, Mr. Ramsay MacDonald, Mr. Lloyd George and other Front Benchers.

Westminster Hall, dating from William Rufus, is particularly memorable as having been the scene of the trials of Sir William Wallace and Robert the Bruce. The walls are covered in armorial bearings of the Seven Bishops. We saw the brass plates marking the spot where the ill-fated monarch sat during his trial, also where the bodies of Edward VII and King William Ewart Gladstone lay in state.

There is no nobler building, nor one that visitors find more inspiring, than Westminster Abbey. It is built in the form of a cross, 513 feet in length and 200 feet wide across the transepts. Every stone in the abbey has been crowned in Westminster Abbey. The mortal remains of kings, soldiers, sailors, statesmen, poets and illustrations meet in every walk of life resting beneath the dome. In the crypt is the grave of the Unknown Warrior. The coffin rests in soil brought from the battlefield.

There is no nobler building, nor one that visitors find more inspiring, than Westminster Abbey. It is built in the form of a cross, 513 feet in length and 200 feet wide across the transepts. Every stone in the abbey has been crowned in Westminster Abbey. The mortal remains of kings, soldiers, sailors, statesmen, poets and illustrations meet in every walk of life resting beneath the dome. In the crypt is the grave of the Unknown Warrior. The coffin rests in soil brought from the battlefield.

In the Chapel of Edward the Confessor we saw the Coronation Chair of Stone of Scone, said to have been used by King Alfred the Great. The stone is said to have been brought from the tomb of King Edward the Confessor, erected by Henry III, in 1269, originally a golden shrine decorated with jewels and golden images of the twelve apostles. The stone is said to have been brought from the tomb of St. Peter Mary lie side by side in the north aisle of the Henry VII Chapel.

"Little did we think as we went to see the coronation miter, that not as it is spelt but as 'Yoland.' Again fortune favoured us for in the spicery of spic and spans ships we were part of a flotilla which easily sailed up North Sea. No time was lost at Esbjerg, for before 11 p.m. we were in our bullock berths ready to have the train move on and the rail ferries as we crossed the Great and Little Belt which interrupt the journey. By eight a.m. we were again in our berths awaiting the Hotel Cosmopolitan, sending that spice of adventure which seems inseparable from a foreign land.

Now we are back again, having left Denmark. The kindness and frankness of the air reminded us of Western Canada. Here too was a northern people who appreciated stories. Nevertheless we were not prepared for the welcome, the brotherly welcome Mr. Hogaboe Holm, secretary of the General Agricultural Council, Mr. C. C. C. C. Chairman, and Mr. John Gillies, president of Danilson幼稚農業 which took place following our arrival, by the presentation of a speech, and a presentation on every department of Danish agriculture. But the frankness and friendliness of this proceeding were exceeded. "We are all looking forward to a new and lively competition in the world market, but being, as we are, descendants of the old Vikings, we are looking for the

Britain's most popular little lady, Princess Elizabeth, daughter of their Royal Highnesses the Duke and Duchess of York.

SUNDAY SCHOOL LESSON

JULY 15

THE CONVERSION OF SAUL

Lesson: Acts 9:1-16; 22:6-16; 1 Corinthians 15:8.

Devotional Reading: Psalm 31:9-49.

Explanations and Comments

Saul the Zealot, Acts 9:1, 2—The "But" indicates the contrast between Paul's zeal in advancing the gospel, which he exercised in Jerusalem in A.D. 8, and Saul's zeal in retarding it. By means of a vivid metaphor, Luke shows us how Saul's presence brought terror to the church and the disciples were in hiding. "The Sauls breathing threatening and slaughter against the disciples of the Lord, went unto the high priest, 'Breathing out threatenings and slaughter against the Jewish form there, warrants that translation.' It is as if Saul were fairly panting, in his effort to give expression to his outraged thoughts concerning the disciplines."

From the high priest Saul asked and readily obtained letters to the synagogues of Damascus which permitted him to arrest believers of Christ, whether men or women, and bind them bound to Jerusalem. At Jerusalem the captives were to be delivered to the chief priests. The trial, Henry Drummond puts the situation in a striking way: "In the pride of Paul's conversion, he had an idea, and put the idea to reverse, the maxim of the Crucified Leader of the hated sect, and go into all the world and suppress the gospel in every creature."

There are similarities between the course of Paul and that of Felix Dzerzhinsky, the chief of the Red Terror in Russia. He was the organizer of the Cheka. Soviet Russia, maintained by which the Bolsheviks maintained their position against their enemies in the first years of their civil war for power, was not unlike the methods of Hitler. Indispensible and impulsive, he was the sort of inexorable judge who believed that people must be tortured and executed for the sake of an idea. He was the victimizer, but he freed them about plots against the Soviet state to fear into the hearts of its foes and so to advance the cause of Communism in Russia and throughout the world. In certain aspects Communist fanaticism is like religious fanaticism. One of its most remarkable features is the products of this gentle individual and cruel inquisitor, Dzerzhinsky."

Tragedy Of The Arctic

Eskimo Mother Perishes In Attempt To Save Children From Drowning

A tragedy of the Arctic in which an Eskimo mother sacrificed her life to save children from drowning. She, with three children, was lost in a small boat, and was found clinging to a piece of driftwood. She was rescued by a fisherman, and undoubtedly she would have lived through the night. In certain aspects Communist fanaticism is like religious fanaticism. One of its most remarkable features is the products of this gentle individual and cruel inquisitor, Dzerzhinsky."

Want Lower Fares For Harvesters

Ask Special Rates As A Means Of Providing Help Where Needed

Special railway rates between inter-provincial points as a means of providing a more fluid harvest labor supply in the West was advised at a conference in Winnipeg of Canadian members of the Canadian Government employment service, the Board of Trade and the Provincial Government.

Further recommendation was that the railways arrange the reduced rate tickets so that the labor supply could stop off in Manitoba and later proceed to Alberta and Saskatchewan, where the harvest is later.

CHAPTER XXVII.—Continued.

Dr. St. John would not have been critical of his wife if she had chosen to follow some profession. He would have liked that. He did not believe that every woman had to be run in the domestic mould, making the coffee and ironing shirts—anyone could do that! But the companionship—the good fellowship of a wife—he craved it! And now that craving was slowly turning to resentment. Other men had wives—he had a queen of chatter, a hoarder of trinkets, a bridge player, a tea drinker!

The telephone rang.

"Yes, it is Dr. St. John. Who is speaking?"

"Jack Doran."

"Eva's brother? On your way through? Come along, yes, we are at home—I'll drive down for you in only thirty minutes. Grand Trunk? I'll be there—yes! Eva will come, too."

The Doctor hurried into the living-room and spoke to Eva. "Jack is at the station. Get on your things," he said, "my car is at the door. Leave the crowd here."

"We will all go," cried one girl, with very bare shoulders; "I want to see Eva's good-looking brother. Let's give him a regular send-off."

The crowd arose flutteringly, all chattering. There was something particularly irritating to the doctor in their idleness, their gaiety, their lack of seriousness. "Stay here," he said curtly; "Jack Doran has no desire to be met by a crowd of strangers for whom he does nothing. He wants to be left alone."

Eva turned on him indignantly. "Well, I like that," she said. "Remember, a station is a public place—anyone can go. Come on, kids, every one of you."

The doctor took his wife's arm with a suddenness that surprised her and said, "Hurry Eva—have you no sense?"

"You have no right to be rude to my friends," said Eva peevishly, when they were on their way to the station: "you acted abominably just now!"

"Oh forget it!" the Doctor said, "and try to get a serious thought in

your mind for once. Your only brother is going to war, and the chances are against you ever seeing him again. Have you nothing to say to him? Forget that cackling gang for half an hour. Their feelings are not hurt."

Eva looked at him in speechless amazement.

Jack had hoped that he might see his sister and the doctor alone. He wanted to tell his sister about Helm. The boy's heart craved companionship—he must tell someone. But the whole crowd swarmed around him with their incoherent gaiety, their senseless chatter, and the few minutes went by uselessly. The Doctor was furious, and it was against Eva that his rage was directed. Here was his only brother going away, and she had not a serious thought in her head—not one loving personal word for him.

The Doctor took Jack's hand at the last, as they stood at the steps of the train. "I am going over to Jack," he said; "it is going to be a long fight, and we will all be needed. I cannot stand back and see other men go. I am proud of you, Jack. Can I do anything for you?"

A great impulse to talk the Doctor came to Jack but the conductor was calling and the train bell was ringing.

"I wish I could have had a good talk with you," Jack said, as the train began to move.

That night when her company had gone, Eva came into the Doctor's room. His light was still burning, and she knew he was not asleep. Her smile was graceful, in a light gown of cream satin, was determined to check what was the first sign of indecision in her husband. Her married friends advised her that her husband would be "all avaricious" within an exhibition of vanity or crossness; he will be worse the next time; so Eva had her mind made up to be very haughty and coldly proud. She would forgive him, but only after a distinct understanding.

"What, have you have to say?" she asked him, with the vivacity manner that had never failed.

"Nothing," he answered, "only that it is time you were in bed."

"Do you mean to say that, after insulting my guests?"

The doctor took down his book. "If your guests had any sense, which they have not, they would have stayed here and let you and me go alone. They don't know Jack Doran, and the station believed it was something to demonstrate to relieve the dullness of their vacant minds. I told you to hurry if you wanted to see your brother. Now you can be as hurt over it as you like. I am tired trying to understand you, and have come to the conclusion that there is nothing to understand, in fact you have ceased to interest me."

Eva had not expected this. "What do you mean?" she said at last.

"Just what I said! Selfish people pay for their selfishness in the end, though they may be able to run on credit for a long time. The world is at war, Eva, but you do not know! While you and your overfed friends were eating and drinking downstairs, boys were dying in mud and cold to save the world, brave boys like Jack. Nurses were blushing, and mothers—those refugees were pouring into England to be cared for by the women of England. No, Eva, your type might last a long time in peace, but it comes up badly in time of war."

Eva was looking at him now through half-closed lids. Dull anger burned in her eyes.

"You are no longer a child, Eva, though I can hardly say you are a woman. You are a perfect form to hang clothes on, and a very graceful dancer, and a very free spender on clothes, but if you thought you could get away with it right now you would give a violent exhibition of anger. But something tells you you would be quite useless. You will never be an old woman, Eva; don't be

UNIVERSITY OF MANITOBA

WINNIPEG

Offers, among others, the following Courses:
The Faculty of Arts and Science courses leading to the degrees of B.A. and M.A., and B.Sc., Through its Faculty of Engineering courses leading to the degrees of B.E., B.Sc. (Eng.), M.Sc., and Through its Faculty of Medicine courses leading to the degrees of M.D. and C.M.

afraid of that. Old women are patient, kindly, motherly people, ready to help, ready to work, anxious—perhaps too anxious. You know the type, and utterly despise them. You were quite ashamed of my dear old mother when she came to visit us; she was so old-fashioned and quaint to you and your friends. No, you will never be an old woman, Eva. In another fifteen years you will be a stale novelty."

The Doctor took Jack's hand at the last, as they stood at the steps of the train. "I am going over to Jack," he said; "it is going to be a long fight, and we will all be needed. I cannot stand back and see other men go. I am proud of you, Jack. Can I do anything for you?"

"A great impulse to talk the Doctor came to Jack but the conductor was calling and the train bell was ringing.

"I wish I could have had a good talk with you," Jack said, as the train began to move.

That night when her company had gone, Eva came into the Doctor's room. His light was still burning, and she knew he was not asleep. Her smile was graceful, in a light gown of cream satin, was determined to check what was the first sign of indecision in her husband. Her married friends advised her that her

husband would be "all avaricious" within an exhibition of vanity or crossness; he will be worse the next time; so Eva had her mind made up to be very haughty and coldly proud. She would forgive him, but only after a distinct understanding.

"What, have you have to say?" she asked him, with the vivacity manner that had never failed.

"Nothing," he answered, "only that it is time you were in bed."

"Do you mean to say that, after insulting my guests?"

The doctor took down his book. "If your guests had any sense, which they have not, they would have stayed here and let you and me go alone. They don't know Jack Doran, and the station believed it was something to demonstrate to relieve the dullness of their vacant minds. I told you to hurry if you wanted to see your brother. Now you can be as hurt over it as you like. I am tired trying to understand you, and have come to the conclusion that there is nothing to understand, in fact you have ceased to interest me."

Eva had not expected this. "What do you mean?" she said at last.

"Just what I said! Selfish people pay for their selfishness in the end, though they may be able to run on credit for a long time. The world is at war, Eva, but you do not know! While you and your overfed friends were eating and drinking downstairs, boys were dying in mud and cold to save the world, brave boys like Jack. Nurses were blushing, and mothers—those refugees were pouring into England to be cared for by the women of England. No, Eva, your type might last a long time in peace, but it comes up badly in time of war."

Eva was looking at him now through half-closed lids. Dull anger burned in her eyes.

"You are no longer a child, Eva, though I can hardly say you are a woman. You are a perfect form to hang clothes on, and a very graceful dancer, and a very free spender on clothes, but if you thought you could get away with it right now you would give a violent exhibition of anger. But something tells you you would be quite useless. You will never be an old woman, Eva; don't be

(To Be Continued.)

Can Anybody Enjoy Idleness

Succession of Lazy Days Would Bore Most People

Mrs. Baldwin says that when her husband retires he is going to settle in Canada. Why is it always the dream of busy men to retire from the scene of their operations, and spend a life of inaction, when, in reality, could that dream come true, it would bore them to tears? It is unattainable.

There is no man of normal joy and delight; it is always that mirage in the desert which beckons us. But what a good thing that we so seldom dream it! For disillusionment of our dreams would be cruel. And I cannot believe that to retire from active participation in life has interested us all our lives is often happiness for any one of us. Yet at times, when work has pressed hard upon us, it is lovely to think of idleness, and nothing that must be done at top speed, whether we want to do it or not. And when you come to think of it, how can anyone except a very busy man or woman really enjoy idleness? To the habitually idle it is not novelty, and consequently no treat. And I am quite certain that it would very soon become the most boring thing in the world to anyone who hasn't a talent for it.

For disillusionment of our dreams would be cruel. And I cannot believe that to retire from active participation in life has interested us all our lives is often happiness for any one of us. IT'S A BORN HILL CLIMBER

Just try it!

COME drive this new Oldsmobile yourself. Try it out on the longest, steepest hill you know. You'll be thrilled at the way its smooth, even flow of power carries you on, up and over—without the slightest effort. For its amazing ability to take any hill, or any number of them, with the firmness of one of the principal reasons for its tremendous, country-wide success. And this Oldsmobile will pass every performance test you make with the same brilliant record. Its great new 55-h.p. engine provides speed, pick-up, power and stamina to fulfill every motoring desire. And a new cylinder head of General Motors Research design adds all the advantages of high-compression performance, yet does not require the use of special fuels.

Thousands of buyers are choosing the Fine Car of Low Price for its beauty, luxury and style—for its comfort, dependability and handling ease—for its excellency in every performance—and, especially, because it is a born hill-climber.

ALBERTA HIGHWAYS TO BE SURFACED WITH OIL

With a view to still further improving the condition of Alberta's main highways and reducing the cost of maintenance, a series of experiments will be conducted on a number of gravelled roads in the province during the next few weeks to test the efficiency of a covering of oil. It is announced by Hon. O. L. McPherson, minister of public works, that a heavy asphaltic oil will be used in surfacing the roadbed for several miles on the principal highways. Satisfactory results are anticipated from this treatment which has proved highly satisfactory in a number of the eastern provinces.

STUDY OF MAPS SHOW FAIRLY PICTURES EXIST IN POPULAR MIND

We like to laugh at the popular story of the European who, when talking to a New Yorker, innocently inquired if the latter happened to know a certain Texas man. However, the mistaken idea is easily explained by the compactness of Europe. It is difficult, says the Pathfinder, for the European to appreciate the fact that some 1700 miles separate New York from Texas. The average European, used to reckoning short distances, imagines that people in the states are quite neighborly and are acquainted with each other. They would probably be surprised to know that most of Europe, apart from Russia, could be crowded into the United States with room to spare.

On the other hand, how many Americans realize that the United States could in turn be crowded into the northwestern part of Africa and not take up much more room than the great Sahara desert occupies?

How many of us realize that the east end of the Panama canal empties into the Pacific and the west end into the Atlantic, just opposite from what is popularly supposed? If you don't believe it, consult a map.

Also, how many people know that our antipodes are not China, as commonly believed, but somewhere in the Indian ocean west of Australia?

And how many know that a line drawn directly east from New York reaches, not England, but Portugal; and one drawn directly south from New York passes through Peru into the Pacific ocean?

We are accustomed to imagine Iceland as a cold country, but did you know that the temperature at Reykjavik seldom goes below freezing and never below zero? The Gulf stream is responsible for this.

Do you know that the isle where the German fliers landed is nearer Rio de Janeiro than is New Orleans? It is. And Greenland is closer to the Brazilian capital than northern Texas.

We like to think of South American republics as small, yet if Chile could be transferred to the northern hemisphere it would reach from Canada to the British Isles. Brazil is larger in area than the United States. Now consider Asia!

We laugh at little Siam, but if we could move that country to North America we would find that it would reach from the Gulf of Mexico to Java and not so tiny together they would span the Atlantic. Barnum's famous "wild man from Borneo," if he did come from the island of that name instead of Manhattan Island, as some claim, has a home of considerable extent, for the island of Bor-

neo is larger than the New England states with New York, Pennsylvania, New Jersey and Ohio thrown in for good measure.

Who has heard of "Papua"? It sometimes appears on the map as New Guinea, in the south seas. Transplant it to North America and one end would touch Hudson Bay and the other Florida. The islands of Japan would reach from Canada to Florida.

As for other oddities: People who think that the Sahara desert is wholly a flat, sandy hot waste have another guess coming. You can freeze to death on this desert. A good half of it lies in the temperate zone and there are some lofty mountain ranges in it.

What person from the "show me" state realizes that a portion of Missouri lies in the same latitude as Tunis? Did you know that Calcutta, India, is farther north than Key West, Fla.? If you went straight north from Cape Town, what part of Europe would you strike? No, not Spain, but Greece. Australia is not south of India; it's southeast of the Philippines. This island-continent, to the way, is almost as large as the United States.

If you went directly south from New Orleans would you strike South America? No! Not many people are aware that Labrador is directly west of Scotland. The Hawaiian flights led some people to assume that Hawaii is west on a straight line from San Francisco. On the contrary, it is directly west of Mexico City and directly south of Alaska. Porto Rico is east of a straight line drawn south from New York.

It is difficult for those on the northern hemisphere to realize that seasons below the equator are exactly reversed. We think of January as a cold month. That is the hottest month in the southern hemisphere. While most Americans go north to seek coolness in summer, people in the southern hemisphere go still farther south for relief.—Spokesman Review.

CORRECT TITLES

The correct title of his excellency is set forth as follows: The Viscount Willingdon, G.C.S.I., G.C.M.G., G.I.C.E., G.B.E. (Knight Grand Commander of the most Excellent Order of the Star of India, Knight Grand Cross of the Most Distinguished Order of St. Michael and St. George, Knight Grand Commander of the Most Excellent Order of the Indian Empire, Knight Grand Cross of the Most Excellent Order of the British Empire); governor general and commander-in-chief of the Dominion of Canada.

The correct title of Lady Willingdon is: The Viscountess Willingdon, C.I., G.B.E. (Lady of the Crown of India, Dame Grand Cross of the Most Excellent Order of the British Empire).—Ex.

A woman and three men were shot to death by a maniac near Mannville. The culprit is still at large.

Drive your own Car!

WHY walk, or be dependent on public transportation facilities, when you can drive your own car . . . go where you like, when you like, as you like.

There is no barrier of price standing between you and the ownership of a good used car.

We have a finer selection of used cars than ever . . . and the prices are the lowest we have ever been able to quote. These cars have been taken in exchange on new Chevrolets . . . checked over carefully and priced to interest shrewd buyers.

Come in and learn how easy it is to own and drive your own car. Easy payment plan available.

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church
may serve you.

Services for Sunday, July 15, the
Pastor in charge:

SENIOR SCHOOL at 11 a.m.

JUNIOR SCHOOL at 2 p.m.

EVENING WORSHIP at 7:30 p.m.

"Wherefore do ye spend money for
that which is not bread? and your
labour for that which satisfieth not?"

VACATION SCHOOL. The Vacan-
tion School is intended as a community
service which the church is offering
to all interested in it.

Any child willing to obey the rules,
who is of suitable age, is very welcome.

The children are carefully graded
so that they may get the most out of
what is being done.

The average attendance for the
first few days is sixty-four boys and
girls.

At the close of the school a public
demonstration and exhibit will be held.

Although the first estimate of the
cost of the school was \$100, the actual
cost will not be less than \$150.
This does not include any token of
appreciation to the teachers and helpers.
Your gifts will be greatly ap-
preciated. Hand them in to the prin-
cipal, Rev. J. W. Smith.

THE PASS FIFTEEN YEARS AGO

(The Blairmore Enterprise 1913)

April 18.—In the provincial election
on Monday, Bob Campbell was
returned for Rocky Mountain with a
majority over Powell and O'Brien of
about 200.

At the regular meeting of the town
council on Monday night, the Rocky
Mountain Cement Company complained
that certain parties were making
use of their property as a nuisance
ground and requested the council to
have the grounds cleaned up of such
nuisance at once. Secretary was in-
structed to advise the company that
the council would not interfere in
the matter.

The account of the Alberta Trading
Company for twenty-five cents was
passed by Monday night's meeting of
the council. This was the most im-
portant business of the session.

On Friday last, C. DiCastro re-
ceived his commission as Italian con-
sular agent. His territory extends
from Nelson to Lethbridge.

The following applications for li-
cense will be considered at a
meeting of the Board of License Com-
missioners to be held at Frank on
May the 10th: W. R. Robbie, Arling-
ton hotel, Pincher Creek; Henry Mar-
quis, Alberta hotel, Pincher Creek;

Co-operation Rather Than Discord

It has been one of Canada's greatest misfortunes that periodically throughout its history campaigns have been inaugurated having for their object the division of the people into rival camps divided by lines of racial and creed difference. Probably no one living has in the past operated quite so disastrously to retard the growth and national development of Canada. Time and time again when some large national question was up for decision, the largest factor in the result was the racial and religious policy involved, but upon some pretty race and creed cry. One of the outstanding cases which is still fresh in the public mind was the Reciprocity election of 1911 when, in the last two weeks of the campaign, Ontario was swept by one of these insidious crises, and tens of thousands of voters were stampeded from support of their economic convictions in favor of free trade and wider markets.

Throughout his long career, both in private and public life, Sir Wilfrid Laurier pleaded and strove for unity and concord among all classes of the Canadian people. Hon. Mackenzie King is worthily upholding the same cause, and it is gratifying to note that Hon. R. B. Bennett, as leader of the Conservative Party in the Dominion, is throwing the whole of his eloquence and influence in the same direction. Speaking at Magog, in the Eastern Townships of Quebec, last month, Mr. Bennett said: "He who sows seeds of discord and distrust in racial and religious matter is a greater enemy to Canada than one who came with an armed force. You cannot develop a country by ill-will, hatred or contempt." A few days later at Coaticook, Mr. Bennett used these words: "The application of the Golden Rule in the life of a nation is quite as important as it is in the life of an individual," and he added that anyone who "in the heat of an election sought to raise old animosities, to sow seeds of discord, must not forget his responsibility for such unjust action."

Here in Western Canada it is absolutely vital to the welfare of the country that such words be heeded. To an ever increasing degree the people of the West are looking to and relying upon co-operative movements and enterprises to solve the economic problems of the country. To date these have attained a marvelous success in a comparatively short space of time. This has been accomplished by all classes, all creeds, people of all racial descent, in town and country, working together. There has been no lines of demarcation in the building of these large co-operative organizations. The Wheat Pool of the West, for example, could never have attained their present proportions if power had not such foolishness as often enters into political campaigns been allowed.

The unfortunate fact remains that if the people of a Province or Community are stirred up and divided upon racial or religious lines for partisan political purposes, or for any other reason, the inevitable result is to create suspicions and animosities in the community, or throughout the Province, which makes it extremely difficult, if not impossible, to get all classes together, and hold them together, in a true spirit of co-operation. If the people of the West are divided into Catholic groups and anti-Catholic groups, English-speaking groups and non-English-speaking groups, it naturally becomes impossible for them to come together in the right spirit of friendliness and co-operation which is so essential to the maintenance and development of such organizations as the United Farmers, the Wheat Pools, and other co-operative organizations.

These racial and religious campaigns have never got their proponents anywhere, have never accomplished good, but have always resulted in harm, they are in no sense constructive but always destructive. Despite any and all claims that may be made for them they are the reverse of British and open denial of that liberty and freedom which, it is our proud boast, is to be found and is guaranteed to all under the British flag.

Not only are these unscrupulous campaigns destructive of a real national spirit; not only do they retard national growth, development and prosperity; they render the task of government, whether in the Dominion and Provinces, or in municipal councils and school boards, difficult and sometimes impossible, and in all cases more expensive and less efficient.

Western Canadians, interested in the growth of their country, loyal to its interests, and committed to the policy of co-operation for the common good of all, should most emphatically set their heads upon the ugly head of the serpent of racial and religious ill-will whenever and wherever it may raise itself.

Learning From Canada and United States

Nations Realizing Foolishness Of Arming Against Each Other

The idea of renouncing war is not unfamiliar to us. War is renounced between England and Scotland, between Britain and the Dominions, between Madras and Bombay, between Bengal and Burmah. The idea of war within the Empire is remote from our thoughts. The apprehension of the thing does not add a sixpence to the estimates. And we may say the same of the relations between Canada and the United States. It is true that war has never been formally renounced by these two neighboring Powers; but in practice it is renounced, and neither country arms against the other. To these conceptions, familiar within the British Empire and characterizing for more than a hundred years the relation of Canada to her southern neighbor, it is now proposed to give a wider existence.

Insulin Distributed Free

Ontario Government Supplying More Than a Million Units a Month

Insulin is being distributed free to diabetics sufferers by the Ontario Government at the rate of more than a million units a month, on the April distribution totalled 1,030,000 units.

Altogether 824 patients are receiving this treatment in Ontario and the total cost of manufacture and distribution per patient was \$3.00 during April.

B.C. Agricultural Production

Agricultural production in British Columbia in 1927 totalled \$76,599,200, the largest sum on record, an increase of 7.89 per cent. over the previous year. Exports of agricultural products increased by 19.23 per cent.

New Quarters For Wheat Pool

Central Office Building To Be Constructed In Winnipeg

The Canadian Wheat Pool, a farmer's organization which handles more export grain than any other organization in the world, is to be housed in a modern office building to be constructed in Winnipeg immediately. The building will be 60 feet by 200 feet, of thoroughly modern construction, faced with Manitoba stone and will cost \$600,000.

The turnover of the Canadian Wheat Pool which will be directed from this office exceeds an average of a million dollars a day.

ST. VITUS DANCE

A Trouble That Usually Attacks Young Children

St. Vitus dance in a disease described by many as "the dancing sickness" and as "the fits" and "the shakers". This trouble usually attacks young children, though older people may be afflicted with it. It is a twitching of the face and limbs. As the disease progresses the twitching takes the form of spasms, in which the jerking motion may be confined to one limb or all limbs may be affected. Frequently the patient is unable to hold anything in the hands or walk steadily. In severe cases the speech is lost and the patient is unable to move the jaws and relief comes through an enriched blood supply.

Dr. William Pink Phillips has been most successful in treating this disease through specific action on the blood, which it enriches and purifies. The following instance proves the value of Dr. Phillips' treatment. Mrs. Thomas Bowen, Bath, Ont., says:

"Dr. William's Pink Pill has been in use in my family for years and always with great results. I believe it has helped me in my own case.

At ten years of age he grew very nervous and the trouble developed into St. Vitus Disease. His legs and arms would jerk and his speech was affected, and his condition was pitiable. Just then there came to me a little book telling of Dr. William's Pink Pill and I decided to give it to him. By the time two boxes were used there was an improvement in his condition and by the time six boxes were taken he was well again. He was well and strong, I have also given the pills to my growing girls, and I know of no better strengthening medicine. I am glad that the same applies to grown-ups as well."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Kills Off Noxious Weeds

Alberta Farmer Has Invention Which May Prove Valuable

A machine to dig and destroy weeds has been invented by D. W. Warner, ex-M.P., Edmonton farmer.

A large rotary (horizontal) cylinder is the principal part of the new digger. Into this cylinder are inserted hundreds of large spikes. As the cylinder revolves at high speed the teeth much the soil, biting deep into the subsoil. Clouds of earth are thrown toward the rear of the machine. The dirt settles quickly while the weeds float through the air, finally coming down like snowdrift over the newly-turned earth.

Weeds with extensive root systems, such as twigs, grass and thistles, will fall an easy victim to the digger.

Experiments carried out recently resulted in a field being left covered with finely minced tuft grass roots, like chaff which piled up behind the threshing machine.

No man or woman should hobbles painfully about because of corn when no certain a relief is at hand as Holloway's Corn Remover.

Canada Mineral Industry

Capital employed in Canada's mineral industry in 1927 increased nearly

\$18,000,000 over the previous year.

The mineral output was valued at \$248,389,031, an increase of 4.6 per cent. over 1926.

SUMMER COMPLAINT

Nearly Lost Her Little Girl

Mrs. Theodore Rivett, Anthony, Ont., writes: "Last Fall I nearly lost my little girl as she was suffering terribly from a summer complaint. She was very thin and weak, had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

and after she had taken a few doses she was relieved.

I also found it a grand remedy for cramps and would not be without a bottle of it in the house for any thing.

Has been on the market for over 20 years; put only by The T. Mifflin Co. Limited, Toronto, Ont.

Minard's Liniment for Insect Bites.

Memorial For Atlantic Flier

Parents Of Hon. Elsie Mackay Give \$25,000 Toward National Debt

One member of their daughter's late Hon. Elsie Mackay, wife, perished in trans-Atlantic flight. Viscount and Lady Inskip have given \$25,000 (\$150,000) to reduce the national debt. This announcement was made by Winston Churchill, chancellor of the exchequer, in the House of Commons. The money will be placed in trust and will be known as the Hon. Elsie Mackay fund. The sum given to the nation is the residue of the Hon. Elsie Mackay's estate. The donations will be left to accumulate for fifty years.

The Hon. Elsie Mackay, third daughter of Lord Inskippe, British shipping magnate, made the attempt to cross the Atlantic by air with Captain Walter Hinckley. The take-off was from Cranwell aerodrome, Eng., on the morning of March 13. No trace of the two has been found since.

Victims Of Diseased Milk

97 Per Cent. Of Population Is Affected By Tuberculosis

Three out of every four crippled, excluding war and accident cases, are victims of diseased milk, Dr. E. R. Alleyne told an audience at the Health and Hygiene Exhibit in Winnipeg recently.

He declared that 97 per cent. of the entire population was affected by tuberculosis and that this condition was a social as well as a medical problem. The cost of every ten seven would not be visibly affected; two would break down and one would not recover.

The disease, according to Dr. Alleyne, came principally from infected milk and could readily be overcome by pasteurization and compulsory testing of cattle furnishing the supplies.

Opportunities Not Exhausted

Many Chances Yet For Immigrants Coming To America

Rolvang, professor at the University of St. Olaf in Northfield, Minn., came to this country in 1909, an immigrant without money. Today, as the author of a great book, "Giants in the Earth," he is famous. Standing on the deck of a steamer on the way home from a visit to Norway, he said that the chances for the immigrant coming to America today were as great as when he first came. That is significant. So many young people, native born and alien, feel that pioneering is done. They think the best opportunities have all slipped by. They underestimate the resources and the constantly changing conditions of this world.

Excellent For Croupy Children

When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the spasmodic and tonic convulsions giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, earache, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Electric Oil is recommended by many thousands as an indispensable of the family medicine chest.

Weeds

A machine to dig and destroy weeds has been invented by D. W. Warner, ex-M.P., Edmonton farmer.

A large rotary (horizontal) cylinder is the principal part of the new digger. Into this cylinder are inserted hundreds of large spikes. As the cylinder revolves at high speed the teeth much the soil, biting deep into the subsoil. Clouds of earth are thrown toward the rear of the machine. The dirt settles quickly while the weeds float through the air, finally coming down like snowdrift over the newly-turned earth.

Weeds with extensive root systems, such as twigs, grass and thistles, will fall an easy victim to the digger.

Experiments carried out recently resulted in a field being left covered with finely minced tuft grass roots, like chaff which piled up behind the threshing machine.

No man or woman should hobbles painfully about because of corn when no certain a relief is at hand as Holloway's Corn Remover.

Canada Mineral Industry

Capital employed in Canada's mineral industry in 1927 increased nearly

\$18,000,000 over the previous year.

The mineral output was valued at \$248,389,031, an increase of 4.6 per cent. over 1926.

Five Cent Air Mail

Reduction From Ten Cent Rate Announced in U.S. For August 1st

A new United States five cent air mail postage rate, to be effective August first, was announced by Postmaster-General Newell. A five cent air mail stamp has been introduced.

The reduction from the ten cent rate was authorized by the Kelly Bill recently signed by President Coolidge.

New said he expected the cut in rates to increase the country's air mail business by from 100 to 300 per cent.

Plane Loses Its Engine

When the engine fell from its airplane while the craft was in the middle of a loop at a 1,500 foot altitude, Walter Brooks, of Allentown, Pa., righted the plane and glided to an easy landing. Neither he nor his passenger, Walter Harleman, was injured. The plane had just started into a loop when the heavy engine broke from its supports and dropped. It fell half a mile from where the plane landed.

Honey Production

Honey production in Canada in 1927 was 23,647,285 pounds valued at \$3,660,628 according to a statement issued at Ottawa, this being an increase of 7.7 per cent. over the previous year due mostly to a favorable season but also to the greater number of colonies.

While it may be true that British law gives a man the right to open his wife's letters, yet it doesn't give him a wife who will submit to that sort of thing.

Has been on the market for over 20 years; put only by The T. Mifflin Co. Limited, Toronto, Ont.

Minard's Liniment for Insect Bites.

At First Signs of Pimples Use Cuticura

Apply gently with Cuticura Ointment and hot water and continue bathing for some minutes. The treatment is best on morning bathing. Remember Cuticura Skin and Ointment sooths and comforts tender, sensitive skins and keeps them clear, healthy and attractive.

Sample Box 10¢ post. Mifflin's Cuticura Liniment and Skin and Ointment 25¢.

Dressed Poultry Exports

Minister of Agriculture To Investigate Market In England

Before sailing for England the Honorable W. R. Motherwell spent some time in Montreal discussing the situation with reference to export to England of dressed poultry. Latest sales have been made on the basis of 32 to 36 cents per pound for 3 pound chickens and 39 cents seaboard for 4½ pound chickens. The total export of chicken this year from January 1st to May 31st, was valued at \$11,675. It is the intention of Motherwell to go to London to discuss this export market situation regarding dressed poultry while in Great Britain along with other agricultural products exported, such as butter, eggs, cheese, bacon, beef cattle, etc.

Tennis.

After a brief game of tennis prevent stiffness by using Minard's.

English Pheasants For Saskatchewan

An attempt is being made in the Aisass and Lovernia districts to raise English pheasants of the ring-necked variety. It is not many years since the Hungarian partridge was introduced into Western Canada. The experiment will take some years, and if successful will furnish an added attraction for bird hunters.

Drives Asthma Like Magic. The immediate help from Dr. J. K. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural product and is applied in a natural way. Smokes or vapors reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Indian Alimony

An Alaskan Indian was sentenced to pay his squaw alimony of one bull moose, properly butchered and delivered; ten mink skins, dressed and stretched; five grey fox pelts, or one silver pelt, and 100 full-grown salmon delivered in season.

Time and silence occasionally succeed where all other agencies fail.

Slenderness And Health!

Excessive flesh is dangerous to your health. Get rid of it now! MAIGRIN is a natural product. Properly applied it is a valuable aid. Start treatment at once—you'll be surprised at how quickly you'll feel better. Money refunded if not entirely satisfied. Sent by mail, postage paid, in plain writing. \$2.50 for box, or 2 boxes for \$2.00. Write.

MAIGRIN DISTRIBUTORS, LTD., Dept. W-2, 625 Pacific Bldg., Vancouver, B.C.

The average time of vessels going through the Suez Canal is 16 hours.

HERCULES TRADE MARK

PERMANENT BUILDING PAPER

You can Eliminate Wind and Dampness

With one shot you can assure a client a comfortable house by eliminating wind and dampness. Specify Hercules Permanent Building Paper. Tested and proven wind proof and damp proof, Hercules is made in three grades—x, xx, xxx.

A sample in your hands will best prove to you the quality of Hercules. Will you write us?

ITALIAN AIRMEN ESTABLISH NEW DISTANCE RECORD

Rio Janeiro, Brazil.—A new distance record for sustained flight was completed when Captain Arturo Ferrarin and Major Carlo P. Delprete, Italian airmen, landed on a little beach ten miles north of Natal, Brazil, some 4,600 miles from their take-off at Montecelio Field, Italy.

They brought their big seaplane, Savoia-64, in which they had previously established a world record for duration flight, to the land after a flight which took them across the Mediterranean, through the Strait of Gibraltar and then southwest over the Atlantic via the Cape Verde Islands.

An hour and twenty minutes after landing the fliers resumed their flight, heading for this city, but were forced to descend again at Santinha.

Stormy weather with heavy clouds put the fliers in peril in the last hours of their effort and radio reports received here indicated that they had difficulty in maintaining their bearings after they reached the coast of Brazil.

They were sighted over Port Natal at 4:05 p.m. and were then believed to be heading for Pernambuco. But three hours and 45 minutes later they came down ten miles north of Natal at Point Genipabu. Poor visibility is believed to have caused their indecision.

The failure of the two intrepid fliers to wind up their flight at Rio Janeiro brought disappointment to a huge crowd of spectators in this city. Word that the fliers had gone beyond Natal, flying to the south, coupled with absence of any report of their landing near Pernambuco spread rapidly through the capital and brought throngs to the water front.

Asks Help For Children

Widow of Captain Hincksellie Says They Are Unprovided For

London, England.—The Daily Mail published a complaint from the widow of Captain Walter G. R. Hincksellie, pilot for the Hon. Elsie Mackay on her ill-fated trans-Atlantic flight, saying that her two children were unprovided for. The establishment of a trust fund to reduce the British national debt in memory of Miss Mackay, by her parents, Lord and Lady Inchape, called forth the letter.

Mrs. Hincksellie argued that while there was no legal obligation on Lord Inchape, there was a moral one, because the whole scheme of the flight came from Miss Mackay who hired Hincksellie. She said she had written to him a Lord Inchape telling him of her post-mortem and he replied non-committally, to the first letter, but she received no response.

The government has already accepted the trust fund of \$250,000, which will be left to accumulate for 50 years and then be applied to the debt.

Interested In Wireless Merger

Beatty Makes Important Submissions to British Government in Report

London, England.—The Daily Mail says that President E. W. Beatty of the Canadian Pacific Railway, has made important submissions to the British Government embodying Canadian views concerning the rumored merger of wireless and cable companies to operate imperial communications. Until these recommendations are sifted out, delay in publishing the terms of the settlement is inevitable, says the newspaper. No confirmation of these statements is obtainable but Canadian Press understands that any modification or terms now under consideration that might be made would likely be of small importance.

Problem For Ontario

Toronto.—The spread of communistic literature throughout the school sections of Northern Ontario has been unabated, according to officials of the department of education at Queen's Park. Departmental officials are making fresh inquiries regarding the activity of the communists involved in preparation for any action the prime minister may see fit to take on his return from Europe.

Goes Over Niagara Falls

Jean Lussier Successfully Performs Daring Stunt

Niagara Falls, N.Y.—For the third time in history man conquered the mighty Niagara when Jean A. Lussier, 36-year-old French-Canadian, now living at Springfield, Mass., went over the Horseshoe Falls on the Canadian side in a specially constructed rubber ball while a crowd of 150,000 people lining the river banks on either side, cheered and applauded him.

The start was made from Cayuga Island, about three miles above the falls, at 2:30 o'clock and Lussier was rescued from the bridge eddy below the falls at 3:20 o'clock by William Hill, daring riverman, alone in a boat. At first it was feared the giant ball might be carried down the waterfall. It started in the rapids, plunged over the brink at three o'clock.

When Hill reached the ball it was right side up and it was a matter of only a few minutes until it was towed to shore and opened.

The first to greet Lussier with a resounding smack on his cheek was his sister, Madame J. P. Cautiere, of Sherbrooke, Que.

The only bruises Lussier suffered in his perilous journey were of minor nature. There was a small mark on his right temple, another on his left shoulder, and a spot on his left shoulder-blade, all received, while in the terrific bouncing while his strange conveyance was passing through the rapids above the falls.

Asked concerning his sensations while going over the precipice, Lussier said:

"I didn't even think. It happened too fast."

An Interesting Exhibit

Improved Methods of Marketing to be Demonstrated at Western Fairs

Winnipeg.—With the object of bringing directly before the producers some of the lessons learned during the Canadian National Railways marketing tour of the British Isles last winter, the Dominion Department of Agriculture is preparing an exhibit to be shown at the fairs at Brandon, Calgary, Edmonton, Saskatchewan and Regina during July.

The exhibit will be conducted in a car which the Canadian National Railways are providing and lecturers and demonstrators will be in attendance throughout. The exhibit will be in Brandon for the period of the fair. From there it will go to Calgary, July 9 to 14; Edmonton, July 17-21; Saskatoon, July 23-28 and Regina, July 30 to August 4.

Among the matters which the exhibit will stress will be the importance of marketing only the highest quality products in the British Isles and all the standards of grading and improving methods of marketing Canadian agricultural products so that they can meet more efficiently the intense competition of the Old Country markets. In addition to the lecturers and demonstrators provided by the Government, there will be in attendance at the exhibit at each point visited two or more of the farmers from that district who made the trip last year.

Regrets Appointment Of Viscount Byng

Has Been a Mistake Says London Daily Express

London, England.—In a leading editorial The Daily Express indicates it greatly regrets the appointment of Viscount Byng, former Governor-General of Canada, as Commissioner of the Metropolitan Police to succeed Sir William Horwood, who is retiring.

"Nobody questions his splendid war record," The Express says, "but one man can lead only one life."

"We feel that it has been a mistake on both sides and only Viscount Byng's voluntary resignation of his office can rectify it. That magnificent force, the Metropolitan police, should have at its head a young man of enthusiasm, initiative and vision combined with driving force."

The impression is growing here that Viscount Byng will withdraw his acceptance of the commissionership of the Metropolitan Police if the present criticism in the press and the political circles of his appointment continues. The objections to his assumption of the post are that he is too advanced in years for an arduous position in which he has had no experience, and on these grounds members of the House of Commons, particularly the Labor members, and a number of newspapers are criticizing his appointment.

Fraudulent Currency

Fake American Bills Being Circulated in Winnipeg

Winnipeg.—United States wires a few days ago, carried warnings of the currency of fraudulent \$20 bills. Some of them have turned up here. Seven immigrants have been victimized in the last few days by the fake notes.

Bills used here are valid one dollar bills cleverly changed to give the appearance of the note of larger denomination.

Folks fear an influx of the fraudulent notes during the next week when the Norse convention will draw hundreds of United States visitors. Merchants have been warned.

Serious Drought In Mexico

Some Sections Have Had No Rain For A Year

Mexico City.—Cattle are dying, crops burning up and farmers are facing heavy losses and some of them ruin, in many parts of Mexico as the result of one of the worst droughts the country has ever known.

Conditions are worse in the central states, the granary of Mexico, where the corn crop is almost ruined, and in the cattle and grazing regions to the north between Mexico City and the border. Some of this territory had no rain to speak of for a year.

USE CASH FROM GRAIN OVERAGES FOR RESEARCH

Ottawa.—The Federal Government has decided to devote the entire amount of money resulting from the overages in Canadian terminal elevators to research in connection with grain handling. In making this announcement, Hon. John M. MacLean, minister of trade and commerce, stated that the decision had been made in view of the ever increasing number of problems respecting the production and marketing of grain.

The expenditure of monies resulting from overages will be under the direction of the National Research Council and the order-in-council relative to the disposal of such monies along these lines has been passed.

Expenditures will be utilized not only to subsidize and extend the various researches now under way in universities and research laboratories, now conducting such work, but will make possible research on many pressing problems for which money heretofore has not been available.

In the opinion of the government, monies accruing from the grain trade should as far as possible go toward the solving of the problems of that trade. Among the most important problems in connection with which research has been going on for some time past is that of combating rust. The amount of money from overages in Canadian terminal elevators at the disposal of the government for the purposes mentioned is \$219,000.

SLATED TO RETIRE

Weekly Newspapermen Meet

Officers for Coming Year Elected at Edmonton Convention

Edmonton.—H. B. Amlow, of Campbellton, N.B., was elected president of the Canadian Weekly Newspapers Association at the concluding session of the annual convention here. E. Roy Sayles, of Renfrew, Ont., was re-elected secretary-treasurer.

Invitations for next year's convention were received from the maritimes with Halifax or St. John as the venue, and from Regina and London, Ont. No decision was arrived at, the choice being left in the hands of the executive.

Additional officers elected were as follows:

Directors: Maritime Provinces—H. S. Anslow, Windsor, N.S.; Don Fraser, New Glasgow, N.S.;

Alberta—George Legge, Granby;

Alberta—John Gledhill, Thetford Mines;

Ontario—Lorne A. Ecty, St. Mary's; A. W. Marsh, Amherstburg;

F. A. J. Davies, Carleton Place; J. A. MacLean, Barrie; George Mitchell, Hanover Port; George Lake Timmins; Fred Elliott, Alliston; W. A. Dry, Dunnville; D. Williams, Collingwood.

Manitoba—J. L. Cowie, Carberry;

W. V. Udall, Boissevain;

Saskatchewan—Cameron McIntosh, Battleford; S. J. Dornan, Alameda; Donald Dunbar, Estevan;

Alberta—Charles Clark, High River;

British Columbia—R. E. White, Kamloops; C. A. Barber, Chilliwack.

LOEWENSTEIN MEETS DEATH IN FALL FROM PLANE

LONDON.—Captain Alfred Loewenstein, Belgian multi-millionaire capitalist, one of the world's richest and at the same time a romantic figure in finance, went to his death when, as it appears, he inadvertently stepped overboard from his private airplane when it was flying over the English Channel, and fell into the sea.

The British Air Ministry announced that the Belgian Croesus had been drowned.

Loewenstein, according to the Air Ministry statement, set out from London late Tuesday night for France in his palatial transatlantic one of the most luxurious ever built. At the time of the strange mishap, he is believed to have been moving from one compartment to another and, in doing so opened the wrong door; stepping outward, he plunged into space.

Another passenger on the plane followed Loewenstein after he had shifted from his position to speak to him. This passenger, whose name was not learned, found the door in the fuselage of the machine open and the financier missing.

Immediately notified the pilot and the plane landed on the Dunkirk Sands in France. Later the plane proceeded to the aerodrome at St. Omer, near Dunkirk.

Captain Loewenstein, who visited Canada and the United States in April, perhaps was best known for his \$50,000,000 loan offer to the Belgian Government in order that the Belgian transatlantic flight might be realized.

Loewenstein, whose offer was refused, had likewise offered across the horizon of European finance a few years after the World War. Leaving Brussels for London, he built a modest fortune into one of the largest financial concerns in the world but shunned publicity, with considerable success until 1926.

Then the newspapers found out about his success and he became another "Croesus" whose fortune, whose affairs reached into every corner of the world.

The reporter found many colorful events in his life and many unique habits in his every-day labor. He dictated letters while shaving; his meals were occasions for discussion of business with men powerful in finance, from morning until night and often times far into the night he had secretaries and stenographers at his elbow while he carried on his business.

Aviation was one of his greatest hobbies and it became one of his greatest business assets.

Inset Menace Slight

WINNIPEG.—There has never been a year when the west was so free from insects of all kinds as the present," declared Arthur Gibson, Ottawa, Dominion entomologist, on arrival here en route from a tour of inspection of the west. There was no sign anywhere of any insects harmful to crops, he stated.

H. B. ROAD TO BE COMPLETED FOR SEASON 1930

Ottawa.—That the Hudson's Bay Railway will be completed to Churchill for the season of 1930, is the confident belief of the engineers. It is unlikely, however, that the harbor itself will be completed as early as the railway line and a real test of the new northern route to the sea will not be possible for three or four years.

Some 1,500,000 cubic yards of sand, gravel and boulders must be dredged from the bay before ocean-going vessels can dock at Fort Churchill and take on cargoes of grain and other products of Western Canada destined for the world's markets.

Aids to navigation, direction finders and terminal elevators and docking accommodation for half a dozen vessels loading or unloading simultaneously must be established before the success or failure of the Bay route as a factor in Canadian foreign trade and transportation can be determined.

When the terminal of the railway was changed from Port Nelson to Fort Churchill an additional 154 miles of trackage was involved, the distance to Churchill being that much greater. The engineer anticipated that eighty miles of that will be graded and steel laid by December of this year, while by December, 1929, steel will be laid right to Fort Churchill and the whistle of the locomotive will be heard across the Bay. This will enable the government to rush supplies by rail for the development of the port.

In connection with the excavation work for the docks and navigation channels one dredge was launched at Montreal a week ago and another will take the water next week. These dredges will be towed to Churchill in August and should report there by September, but they will not be operated until next year. In addition a self-propelled hopper dredge was launched at Collingwood recently and it will go north with the dredge in time for operations next year.

The department has purchased one tug and leased a second tug called "The Dainty" from the Irish Free State for towing purposes in connection with the barges. The government is constructing a temporary dock out of local timber and the permanent docks will be constructed when the boulders gravel have been dredged out. In the meantime supplies will be unloaded by lighter. There is deep water right across the bay except at the site of the docks.

The range-finding stations are being established by the Department of Marine and Fisheries at Resolution Island and Cape Hopes Advance, for the purpose of giving directions to incoming vessels entering the Hudson Strait.

Planning Farm

Credits System

Legislation Passed Two Years Ago Soon to Become Effective

Ottawa.—It is announced at the Finance Department that within a very short time effect will be given to the legislation passed two years ago and made contingent upon provincial adherence, establishing a system of farm credits. By the legislation then passed the way was paved for Federal financing of the system in the province which went in on the plan—Ontario, with a scheme of its own, will not do so, nor will Saskatchewan, which is in the same position, while Quebec has not decided as yet.

Four provinces, however—Manitoba, Alberta, British Columbia and Nova Scotia—subscribe to it. In consequence, the project will go ahead. A Loan Commissioner will be appointed and a central organization, but not a large one, will be established at Ottawa.

The greater part of the administration, however, will be in the hands of the provinces.

Fire in B.C. Mine

FERDIE, B.C.—Fire in the tipple of the Corbin Coal Co., Ltd., at Corbin, B.C., completely destroyed the structure.

This disaster will, it is believed, cause the closing down of that colliery and throw a couple of hundred men out of work. No estimate of the loss has been made.

The Lister Institute of England is experimenting with a number of guinea-pigs to discover health value of different varieties of apples.

SAY IT WITH SONGS

Probably what has ever been the largest crowd to say goodbye to a departing individual, omitting royalities, was recognized at the North Toronto Station of the Canadian Pacific Railway, recently when two thousand choir members of the Toronto Exhibition sang "Bon Voyage" to their leader, Dr. H. A. Fricker, upon his leaving for England and Europe.

About an hour before the departure of the train, the station was densely packed. Eleven special street cars and one hundred automobiles were used for the transportation of the group.

Drawn up at the platform the two thousand choir members sang with great effect as the train carrying Dr. Fricker started on its eastern jour-
